

BLOXAM BURNETT & OLLIVER

Civil Design Manager

- Lead design on highways, roading & land development projects
- Join a high performing consultancy
- Work with a grounded, collaborative, resourceful team

If you're looking for an enjoyable team environment where people are grounded and resourceful, collaborate and support each other, plus have a genuine desire to do right by the clients they serve, then BBO could be the right place for you.

BBO is multi-discipline consulting firm with offices in Hamilton and Tauranga. We collaborate with councils and government agencies, property developers and other consultants to provide services in engineering (infrastructure, site observation, structures, water resources, traffic and transportation), planning and land development. Despite our relatively small size, we compete with major national and international consultants for significant projects and have developed a strong reputation for delivery. This comes down to the expertise of our team, plus the strength of our relationships and collaboration.

BBO is on the lookout for an experienced Civil Engineer to lead technical development of projects and manage design delivery. The design work will be varied from conceptual design, through preliminary design for consenting purposes to detailed design of new infrastructure and infrastructure improvements.

The Challenge:

- Deliver effective design solutions for land development, roading and highways projects.
- Lead technical development of projects and manage design delivery to achieve project outcomes.
- Provide mentorship and training, technical direction and oversight to members of the Civil team.
- Work closely with colleagues, clients and contractors, and be an integral member of cross-organisation and internal project delivery teams.
- Contribute to and lead the continuous improvement of design processes and systems.

Your Skills:

- Hold a Civil Engineering qualification.
- Minimum of 7 years' related experience including consulting experience.
- Strong civil design skills ideally with 12D experience.
- Prior design management or technical leadership experience will be highly regarded.
- Excellent communication and organisation skills.

If you bring relevant experience and would enjoy the environment at BBO, we'd like to hear from you.

All applications and employment enquiries are forwarded to our outsourced recruitment provider, Peak Recruitment, to be reviewed on behalf of BBO.

For a further information about this role and to apply, visit www.peakrecruitment.co.nz or jobs@peakrecruitment.co.nz, or contact Lisa Hulley (in confidence) on 027 688 8831.
