

BLOXAM BURNETT & OLLIVER

Civil Site Engineer

- Work on a multi-million-dollar project.
- Great team and work environment.
- Roads, bridges & land development.

With significant civil infrastructure projects underway and in the pipeline, BBO is expanding its Construction Monitoring team and looking to employ an Intermediate level Civil Site Engineer in Hamilton.

BBO is a multi-discipline consulting firm of engineers, planners and surveyors delivering diverse infrastructure projects from highways and bridges, to land and site development, and council infrastructure. We're big enough and have the multi-disciplinary expertise to lead large projects to completion, but also small enough to be personable and approachable.

If you're looking for a non-hierarchical environment where people can be themselves, are grounded and resourceful, collaborate and support each other, plus have a genuine desire to do right by the clients they serve, then this could be the right place for you.

The Challenge

- Site representative on bridges, roading, highways and land development projects.
- Provide technical input and work closely with the contractor to anticipate and resolve technical issues and risk.
- Be the client's point of contact, inspecting and reporting on health, safety, environment, quality, programme, budget and any exception issues.
- Administer the contract on a day-to-day basis.

Your Skills

- Hold a Civil Engineering qualification and have at least 3 years' related experience gained in a NZ contracting or consulting firm.
- Passionate and proactive to deliver successful projects.
- Excellent communication skills and enjoy working in highly collaborative way.
- Have worked on standalone projects from the ground up.
- Have understanding and experience of NZ 3910.

All applications and employment enquiries are forwarded to our outsourced recruitment provider, Peak Recruitment, to be reviewed on behalf of BBO.
